

Webex Meetings

Unified Communications by the Cloud
Communications division of NTT Ltd.

Webex Meetings makes it easier than ever for everyone to be seen, be heard, and work together effectively, even when they are miles apart.

Cisco Webex Meetings delivers rich, high quality, collaboration experiences. Simplicity is designed throughout, for highly productive, simple and intuitive use. Full device interoperability is built in for people to Video conference with content sharing in 1080p and high quality audio on any device.

With AI being at the center of the new Webex Experience, your meetings are more than just the people that your with. Couple this with a simple to use and expansive meeting room hardware portfolio, Webex Meetings is designed for all people within the enterprise to get work done.

Organizations need to implement solutions that remove the complexity of the video meeting experience – with crystal-clear audio and content sharing in the same meeting. For more effective, secure, and reliable meetings.

Communication with your colleagues, partners, and customers is always open. We provide a fully hosted solution with full site implementation, provisioning service, and technical support with a single point of contact. Available 'As-a-Service', benefits such as low cost of ownership, no maintenance costs and free upgrades can be realized.

Key business benefits

- Simple video-first experiences from any device. Collaborate more effectively with customers, partners, and employees.
- One single licence plan includes video interoperability, PSTN audio (with free to use destinations) and VoIP.
- Simple joining and scheduling experience. No downloads and plug-ins required.
- Industry-leading security and compliance. Webex Meetings is built with Cisco's industry-leading security expertise.
- Comes with Webex Teams, always on business messaging. Escalate a conversation to a video meeting, share content and continue the discussion after the meeting ends.

“ Cisco Webex Meetings **helps you make decisions faster,** with integrated audio, video, and content sharing. Save time and money by relying on highly secure and scalable meetings from the cloud.

Teams can meet, collaborate, and stay productive anywhere, anytime, on any mobile device or video system. A video first service, helping people to meet with others in a way that suits their working day.

Simplicity at the center of the experience with Webex Meetings

- Engage in simple video-first meetings, with integrated voice and content sharing, to collaborate more effectively with customers, partners, and employees without the need to travel.
- One consistent join experience across all devices – just tap the big green button.
- Bring people together instantly, at a scheduled time, or in your own personal meeting room, improving team interactions.

Increase productivity with business and meeting room integration

- Business tools integration. Meet where you work with the tools you use, including Microsoft Teams, Slack, Workplace by Facebook, and Salesforce.

- Experience life like meetings by combining Cisco’s awardwinning video room devices with Webex Meetings – Or join from any thirdparty video device even Microsoft Skype for Business.
- Cisco video room system? Easily enter your meeting with proximity detection.
